Web site: www.excellenceinaging.org

Clinical and on-the-road evaluations and training; driver simulation assessments and adaptive driver training

Assistance with obtaining 3W restrictions

Technical assistance for vehicle modifications

If you are unable to locate a Certified Driver Rehabilitation Specialist (CDRS) within Virginia that is near you, you may want to visit www.aded.net to locate a CDRS that is closer to you but in another state. DMV will accept a report from an out-of-state driver rehab specialist as long as he/she is a CDRS.

On occasion, grants are made available through the Virginia Department for Aging and Rehabilitation Services to various driver rehabilitation facilities to assist clients with the cost of a driver evaluation. Please inquire about grant assistance at the facility that you choose. Thank you.

*This list is not all-inclusive. Several of the contacts have many Driver Rehab Specialists or OTR/Ls located within their facility.
